--SUMMARY OF INVENTION--

In the English translation document, please amend the paragraph at page 4 lines 1-14, as follows:

This object is achieved by a method ~~as claimed in Claim 1~~ and an arrangement as claimed in ~~Claim 11~~the independent claims. An essential idea of the invention consists in providing a telecommunication service that allows a further call number which is assigned to the B subscriber to be made available to the A subscriber e.g. by using electronic directories that already exist. A further essential aspect of the invention consists in the telecommunication service being activated by the terminal of the A subscriber. Consequently, the setting up of call redirections at the terminal of the B subscriber becomes superfluous or is at least simplified. In
